Planned pesticide usage

We would like to collect information on your planned pesticide usage for the forthcoming year.

Firstly, please identify, along with the researcher, which fields you plan on applying pesticides to using the map provided. The researcher will then allocate codes to each of the identified fields.

Please then complete the table below, providing details of the codes of the fields you will apply pesticides to, the type of pesticides you hope to apply, details of the crop being treated and the month during which you hope to treat the field.

Field code	Planned pesticide	Crop treated	Month
	Product: Manufacturer: Activity ingredient:		
	Product: Manufacturer: Activity ingredient:		
	Product: Manufacturer: Activity ingredient:
